Experience

Digital Experience Assistant, Oregon State University – Corvallis, OR   11/14/2024 – Present
- Assisted in reviewing and testing University-affiliated websites during migration from an older to a newer Drupal version to ensure functionality, quality, and ADA accessibility compliance.
- Collaborated with teammates to develop website tours and develop comprehensive documentation, enabling clients to easily manage and update the site independently.
- Analyzed and addressed client requirements via ServiceNow tickets, ensuring timely and accurate resolution to meet customer needs.

Data Analyst Intern, Daimler Truck North America – Portland, OR   03/24/2025 – 07/11/2025
- Developed a data-driven dashboard to visualize truck build statuses and completion dates, enabling effective work prioritization and ensuring safety and on-time delivery.
- Automated task summarization and email routing workflows using Power Automate AI Builder, enhancing communication and organizational productivity.
- Assisted in software API migration from Mercedes-Benz split to maintain continuity of critical workflows and ensure seamless integration.

Lead Web Developer, Bluekube – Westlake Village, CA   04/03/2022 – 01/21/2023

- Facilitated collaboration among a diverse six-member team, maintaining consistency and smooth execution from development through implementation.
- Oversaw content management on Shopify and WordPress for multi-million dollar monthly e-commerce brands, driving updates and adjustments to drive business growth.
- Utilized heatmap analytics to detect user bottlenecks and implemented data-driven A/B testing solutions to optimize site performance.

Projects / Extracurriculars

OSU Business Analytics Club   [OSU Business Analytics](#)
- Engaged in community-building and leadership development through business and data storytelling, plant tours, and professional networking events.

TrailBlazers Corner   [Trail Blazers Corner](#)

- Built a responsive sports blog web application from scratch using the MERN stack, incorporating HTML, CSS, and Git for collaborative development and version control.

Education

Oregon State University – BS in Computer Science - 3.58 GPA   June 2023 - Mar 2027
Oregon State University – Minor in Business - 3.75 GPA   June 2023 - Mar 2027

Volunteer

SACA (Silverton Area Community Aid)   June 2021 - Aug 2024
- Prepared and delivered nutritious boxes of food to those in need throughout my local community during the COVID-19 pandemic.
